

U.S. Department of Energy

Rebuild America, Michigan Energy Office
Present a High Performance Schools Seminar

School Design and Technologies for the Cold and Humid Climate Zone

Mark Your Calendar!
April 13, 2004

Michigan Historical Library
and Museum
702 W. Kalamazoo Street
Lansing, Michigan 48909
8:30 a.m. to 4:00 p.m.

Discover how the latest energy-saving technologies in buildings can save you money!

FREE ONE-DAY event for K-12 Superintendents, Business Officials, Board Members, Facilities and Energy Managers interested in high performance school design and energy-efficient technologies. Local Government, and University staff members are also welcome to attend.

Includes continental breakfast and lunch.

Technology experts will provide information and discussions on: High-Performance Design, Lighting Controls and Day Lighting, Lamps and Ballasts, Mechanical Systems, recycling, renewable energy and Indoor Air Quality.

To register: You may register online at www.michigan.gov/eoworkshops
